Fayette County, GA, hereinafter referred to as “the County” is soliciting the services of a qualified technology planning and assessment specialist to assist the County in the acquisition of a COMPUTER-AIDED DISPATCH (CAD) SYSTEM to support consolidated Fayette County public safety dispatching operations, hereinafter referred to as “CAD.”

The CAD will be used to dispatch police, fire and medical units to 9-1-1 emergency calls, manage police, fire and emergency medical resources, provide communications between multiple resources, and interface with national and state criminal justice information systems, mobile data systems, records management systems and imaging systems.

The objectives for this project are to:

Acquire the services of a company and/or consultant that:

- Demonstrates a thorough knowledge of technology and technological trends associated with CAD systems.
- Establishes a clear understanding of 9-1-1 dispatch industry standards.
- Is responsive to integration needs between CAD and Records Management, Mobile Data, Criminal Justice Information Systems and Imaging systems.
- Provides an elevated level of customer service.

Submission or Receipt of the Proposal

Prospective vendors are invited to submit proposals in accordance with the requirements outlined in this document. Five (5) sealed copies of the proposal should be submitted, including one (1) original master copy, signed in ink.

All proposals will be publicly opened at the same address, and the names of those companies that submitted proposals will be read. All pages should be numbered and organized as defined in this RFP.

Proposals will be received until 3:00 p.m. local time (EST), on Thursday, July 1, 2010.

Proposals received after this deadline will not be considered. There will be no exceptions to this procedure. Failure to follow the instructions in the RFP is cause for rejection of offer.

Summary of the Project

The County seeks a consultant to provide technical assistance and direction with a review of the RFP written by County staff specifically for a turnkey CAD system. In addition to the review, the consultant will be required to oversee the evaluation of all responses to the RFP and give expert advice to the selection of a short list of companies from which a final company will be selected by the County. The project will also include oversight on implementation of the selected system.

The Fayette County E 9-1-1 Center serves as the primary Public Safety Answering Point (PSAP) for the County, and provides dispatching for all entities throughout the County. This includes the call-taking and dispatching services for the Sheriff, Fayette County Fire and Emergency Services, Fayette County Marshal Office, Fayetteville Fire Department, Fayetteville Police Department, Peachtree City Fire and Emergency Services, Peachtree City Police Department and the Tyrone Police Department. The 9-1-1 Center also monitors the Board of Education, City and County Public Works Departments and City and County Water Departments as well as several State agencies.

Experience Requirements and References.

To qualify for this project, consultants must have successfully assisted with the selection and implementation of CAD systems that are currently in operation within the continental United States. Consultants must describe at least three similar projects installed in the continental United States in the past 5 years on which they consulted. Client contacts must be current and willing to discuss their system with the County's representatives. Repeated difficulty in establishing contact with prior clients will render that reference invalid.

- The identity of acceptable proposals will not be determined at the time of the proposal opening.
- The County reserves the right to obtain the opinion of legal counsel on the legality and sufficiency of all proposals.
